

Appl. No. 10/757,615

Fee Payment re - Filed May 4, 2010

Reply to Notice of Allowance and Fees Due - Mail Date February 4, 2010

Remarks:

An issue fee of \$720.00 has already been paid for the issuance of the present application, which was sufficient to pay for the then issue fee cost. Since the issue fee has now risen by \$35.00, and the USPTO is finally ready to issue a patent grant for the present application, by rule the applicant owes the \$35.00 difference between the original submitted figure and the current figure. Applicant requests that the prior submitted \$720.00 and the presently submitted \$35.00 be applied to the present issue fee total due of \$755.00 and the present application be issued forthwith as a granted patent.

Respectfully submitted,

By
